The first Master Chief game was developed by Bungie and released in 2001. It was the first Halo game to be released for online play. It is also the largest Halo game in terms of number of players. Halo 2, the second game in the series, was released in 2003. It is a successor to Halo: Combat Evolved. It was only released for Xbox due to the fact that the Xbox's only displayed the total amount of players online. Halo 3 was released in 2007 and it was a prequel to the second game. It introduced the user interface seen in all Halo games since then. It is also the last Halo game to feature Spartan II models as main characters. The multiplayer did not make it into Halo 3; it was reserved for Halo 4. The opening cutscene shows an international terrorist attack on a United Nations scientific conference that killed 47 scientists. Half of the scientists were children. This is a reference to the Bosnian Genocide in Bosnia in 1995 and the April 1999 attacks on the U.S. Embassy in Beijing. The Master Chief arrives to fight off the terrorist.
