ImTOO iPhone Photo Transfer Crack+ Free Download

ImTOO iPhone Photo Transfer facilitates a simple solution for copying photographs from your iPhone device to your PC and vice versa with minimal effort on your behalf. It doesn't include complicated options or configuration parameters, making it accessible to all types of users. Simple setup and intuitive interface Setting up this tool is a fast and easy job that shouldn't give you any trouble, thanks to the fact that the setup integrates only familiar options. However, you still need to get iTunes installed first. As for the interface, ImTOO iPhone Photo Transfer adopts a user-friendly window with a clear-cut structure. As soon as you connect your iPhone to the workstation, the utility automatically loads the contents in the photos and camera roll categories. Transfer photos to or from the PC or another iPhone You can preview the images, select any items you want (an option for selecting everything is available), and specify the disk directory to immediately copy files. If you have another iPhone connected to the PC, you can directly transfer images there instead. Create photo albums and covers Alternatively, you can copy the images to another album on the same iPhone, or create a new album and set a photo as the album cover. What's more, ImTOO iPhone Photo Transfer implements options for copying images from the PC to the iPhone, either from file or entire directories (as albums), as long as they have the .gif, .jpg, .jpeg, .png, .bmp, .tif or .tiff format. Evaluation and conclusion The software tool supports multiple skins and languages, and it can automatically rotate photos when adding them. Moreover, it checks for software updates on its own. No error messages popped up in our tests, and the app didn't hang or crash. Transfer jobs were carried out swiftly while CPU and RAM usage remained minimal. Taking into account its intuitive interface and straightforward options, ImTOO iPhone Photo Transfer comes to your aid if you're looking for a speedy and reliable app to copy photos from iPhones to PCs and vice versa. WiperSoft iPhone Data Recovery is now free to use. And with this update, we've brought over the WiperSoft iPhone data recovery tools from the premium version. So no need to spend a penny to get the best solution. ImTOO iPhone Photo Transfer is now free to use. And with this update, we've brought over the ImTOO iPhone photo transfer tools from the premium version. So no need

I was initially a little wary of downloading the trial version and thinking that it would be a "one and done" product. Your team was incredibly helpful and went out of their way to make sure that I had everything I needed in order to transfer the photos and other data I needed to get them out of my machine. In fact, they made me feel like I was their only customer and I can see why they are in business. I will definitely be back for more! Oct 20, 2017 Great software, easy to use Pros Ease of use. Easy. Fast. Cons No cons. Oct 19, 2017 Good Very quick and easy. Software is smooth and swift, but without any image editing option to alter. Oct 20, 2017 Software is a beautiful I'm impressed with the software. Oct 20, 2017 Very useful app It's very simple to use. It transfers photos from iPhone to PC automatically and quickly. Oct 20, 2017 Best Iphone Transfer and Backup
