---

posts, replies and status. • Translate Emoji to Spanish language and browse a vast collection of additional Emoji. • View offers on your timeline and also get offers emailed to you. • Add Notes to your timeline or search for notes. • Play games, like Pinterest, Poke and Funny Games. There is no doubt that WhatsApp is the most popular cross-platform messaging app, and it is currently available on almost every platform including mobiles and desktop. It has many features which make it one of the best

---

messaging applications such as its capability to transfer images, send group chats, share files, record and send voice and video messages. The latest WhatsApp version allows you to access your older messages and groups whenever you want. The important thing is that it is free which makes it very attractive. Some of the features of WhatsApp messenger application are listed below: The latest version of WhatsApp now allows you to edit WhatsApp messages, set reminders on the data you have

---

exchanged with the WhatsApp app for easy access to all of your own messages and groups. You can now also send unlimited photos and videos and create messages that can be from other people or self-created. Another feature with WhatsApp is that your friends can use it without creating accounts. Best feature of WhatsApp is that the application is available on all the major operating systems including Android, iOS, Windows, Mac and Linux. Also, it is available for both iOS and Android apps. If

---

you are using iOS, you need to use the iOS app to send and receive messages. WhatsApp for Windows is available for all windows operating systems. Another interesting feature of the messaging app is that it can work on both Wi-Fi and mobile 3G/4G networks.

**WhatsApp Messenger for Android:**  
WhatsApp messenger allows you to send free multimedia files and group chats. With this, the concept of WhatsApp is simple. You can exchange messages with multiple people and send unlimited image,

---

video, audio and contact information between the people. You can also send files, voice messages

Kawaii Emoji Messenger features a chat window with numerous features. It provides several ways to manage Facebook accounts, in order to keep them at a simple and fast access. Along with this, it also offers a personalized news feed that can be used to read, browse and post your profile updates or brand new friends. In addition to all this, it includes Emoji stickers and emoticons, all designed to spice up your conversation and add

---

interactivity to the chats. Furthermore, the application also supports third-party IM services like Gtalk, Skype and Yahoo Messenger. Furthermore, Kawaii Emoji Messenger allows you to access your Facebook account, aside from the chatting and browsing features, in a more effective way, thanks to the application's dedicated application manager. This means that it does not need a web browser to be used, which can be useful for mobile users. Kawaii Emoji Messenger

---

also features a Skype client, allowing you to make calls to your friends and manage other features like messages and notes. It also provides a Facebook desktop application, allowing you to view all your messages and friend requests from within it. In addition to this, it also features a Facebook timeline view, a collection of emojis, and a timeline that allows you to view all your friends' profiles. The application also allows you to download and play Facebook games directly from it.

---

On the other hand, it also allows you to search for friends, and to add and edit your Facebook profile. Some functions require Facebook account to be accessible, and these functions are marked in the Help menu. Moreover, you can keep an eye on your friends' activities and your own profile, by accessing and browsing your friends' News Feed and posting custom emojis and emoticons. You can also add location-based requests and manage your profile, by using the application's profile

---

manager. Hence, Kawaii Emoji Messenger is a fun and versatile Facebook desktop client. Why Kawaii Emoji Messenger is Better than the Original Facebook application?: The Facebook app is integrated with an exclusive application manager that allows you to manage and login to Facebook from its application. This comes with a dedicated news feed feature and allows you to view and post your profile updates. Furthermore, the Facebook application has integrated the chat

---

function with Facebook Messenger and allows you to view your friends' profile information, without needing to access the web. It also allows you to receive and send SMS messages. You can look at your contacts and make
