Bootloader Error Help, My V3i is showing the following error Loader 0A.30. .bootloader code is corrupted, my Motorola v3i is stuck on this "LOADING" screen. Is there a way to reset it or is there anything else I can do. This is the first time that I'm facing this. Failed to execute loader Error code 0a.30 I had a Motorola V3i for about 3 years. I installed it using CD. It worked well for many years. A few months ago I installed Ubuntu Linux and booted it using USB. I tried to install other programs but it doesn't work anymore. Even after I installed the CD, it still doesn't work properly.
