Adobe Fireworks Adobe  
Fireworks is a graphic  
design program produced by  
Adobe that's like Photoshop  
in that it enables the  
creation and editing of  
raster graphics. Fireworks  
is different from Photoshop  
in that it's designed for  
web pages and similar flat  
media, not photographs.

---

Because Fireworks enables the creation and manipulation of flat media, it's more suited to designers than photographers. You can download Fireworks at [www.adobe.com](http://www.adobe.com).
