Does your GPA under rate that of your friends? If so, isn't it time you finally achieve your academic goal of being graduating? Well, now you can with the help of UnitBits7. This program lets you perform various conversion operations related to distance, temperature, weight, velocity, volume, time, surface and other handy parameters. This simple yet powerful software has been designed to make all your day to day conversations with your friends, family or teachers quick and easy. Program Features: ?MONEY MATH – Conversions between different measurements are made without requiring you to enter intermediate calculations. You get the answer in just one click. ?MEASUREMENT – You can easily convert distance, temperature, weight, velocity, volume, time, and surface measurements to another measurement. All the functions have been integrated into the three menus. ?DONE DURING OPERATION – The software makes all the conversions independent of one another, thus removing the time consuming error prone task of performing conversions one by one. ?RESULT DUMP – You can easily save the calculations on the desktop and share it with others. ?DELIVERED TO CLIPBOARD – The program makes all your calculations easily accessible to third-party software. You can simply copy the results to the clipboard, which makes the conversion task a breeze. ?FLEXIBLE COLOR CHOICES – You can easily customize the program to look like your personal preference. You can choose the colors of the menus and can use different colors for the active calculation. ?UNIFICATION – You can easily combine several calculations as a final result. Just click the Done During Operation button to get the desired result. ?TOTAL DISPLAYED DETAILS – The program provides a display of all the conversions as a final result. The result can be displayed on the monitor in real time, as well as in more detailed view. ?WHEN THE END OF TIME – The program provides an end time of all the calculations performed. You can store the end time as an optional setting. ?ADD TO REGISTRY – The program does not leave any traces on the Windows registry. You can easily integrate the program on other laptops and mobile phones without the need of going through any additional installation steps. ?CONFIGURATION AND INTERFACE DESCRIPTION – When you launch the program for the first time, you are greeted by a well-designed user interface. You can access the options and settings from the main menu
