Simplicity is the end of complexity. Economic Bénéfice Global is an easy to use software designed to provide the users with a comprehensive source of economic indicators. The software is designed to be effective, simple and usable. Although being fully featured, the application offers few types of reports including the latest economic indicators, as well as historical time series. You may choose between summaries and tabs. The summaries are arranged in simple tables and graphic charts, with proper change value. Moreover, the software presents time series arranged in graphs with a parameter change. The parameters of the graphs include indices, different economic sectors, industries or currencies. The graphs are updated daily. The application also presents historical data arranged in tabular or graphic formats. The historical data can be filtered by time, application or date. It also provides a detailed table with explanatory details. The application was created to be very effective, as it facilitates the users with a wide range of features. Bénéfice Global also generates fully customizable reports, in addition to desktop and mobile versions. It also includes a direct link to the data providers, allowing the users to download the reports directly from the official sources. Best of all, it is completely free. How to use Bénéfice Global? Below is a list of the detailed documentation for users of the economic indicators. It consists of seven chapters and 34 sections: Chapter 1. Getting started and licenses Chapter 2. How to add data Chapter 3. Report formats Chapter 4. Data selection process Chapter 5. Data groups Chapter 6. Interface Chapter 7. Time series Bénéfice Global Features: Included in the package: Chart of Account Charts Historical Data Charts Historical Time Series Report Charts Economical Indicators Charts Economical Indicators Reports From Zero to Date Charts From Zero to Date Reports Economic Indicators Charts Economic Indicators Reports Graphs Charts Graphs Reports Indicators Charts Indicators Reports Time Series Charts Time Series Reports Tip: Access to the previous versions or the future releases is granted through a temporary license. Bénéfice Global Benefits: As we previously mentioned, Bénéf 6a5afdab4c

TradeMax International Premier Edition is a reliable and useful tool for the active trader, due to its capacity of generating graphic reports or track your trade history. The application allows you to view stock news, acquire updated quotes or plan investments. You may easily calculate prices and trade using several currencies. Graphic reports designer and capital monitor TradeMax International Premier Edition is a comprehensive tool, which allows you to acquire updated information regarding the stocks on the market. You may view daily reports of capital gain, loss, active transactions, transposed into graphs or pie charts. The software can also generate classic report types that you can export to Microsoft Excel, PDF or CSV. Moreover, you can easily trade with shares from other markets, due to the software's capacity of automatically calculating currency rates. It also displays an extensive list with daily currency exchange rates acquired from the official Forex source. Additionally, you may view lists of the stocks trade, displaying strike prices, expiry dates, the exchange market and trade currencies. Each column can be sorted in increasing or decreasing order. Personal gain and loss reports TradeMax International Premier Edition is capable of generating your trade history and recording corporate events. It can mark each event that affects the cost basis or the capital gains tax in the Schedule D method, as well as keep track of corporate actions. Thus, you may stay up to date with the actions of large companies, such as splits, spin-offs or mergers. The software can generate reports of your realized gain and loss, as well as handle wash sales scenarios: was sales between identical stocks, on an unequal number of securities or on Same Day Rule. You may import data from local files or acquire them online from your broker. Reliable monitoring tool for active traders TradeMax International Premier Edition is an intuitive application which allows you to keep up to date with market trends, stock prices on the specified period of time. The software can also generate detailed reports of capital gain and loss, corporate events or currency rates, as well as configure the average basis method for mutual funds. Competition is increasingly fierce on the stock market, as dozens of investment firms and stock brokers find their way into the market. The number of brokers has risen over recent years to more than 400, with an even larger number of companies seeking to enter the market. The introduction of the internet has led many brokers to expand their presence, offering the service not only to individuals, but also to professional investors, pension funds, mutual funds and insurance companies. Invest
