Auction Low Price Grabber Software

Auction Low Price Grabber Software is designed to provide the user with the ability to monitor the auction price of items on online auction sites and, when desired, to automatically place bids on such items. It runs as a Windows service and can monitor up to twenty online auction sites simultaneously. It will send you e-mail when auctions on your sites are updated. It can also auto-place bids on the auction listings that are of interest. It has a text based interface for easy configuring of different sites and auction types and it includes a preview feature that allows you to see the auction details as well as the overall status of your auction sites. Supported Configurations and Limits 1) Auction Monitor The Auction Monitor will monitor prices on 2 or more online auction sites at one time. 2) Auction High Bidder The Auction High Bidder will automatically place bids on items when they reach the High Bid amount for a specified amount of time. 3) Automatic Bid Automation The Automatic Bid Automation will automatically place bids on items when they reach a specified price. 4) Auto Bid Grabber The Auto Bid Grabber will automatically place bids on items when they reach the specified price on specified sites. Auction Low Price Grabber System Requirements
