About Us Dear Users, We are representatives of a new generation of software developers offering you unique solutions in the Internet field, including professional download managers, file lockers and practical web search engines. Why Us? Mister Soft was established in 2010 year. Back then we've been dreaming about creating an organized catalog of Internet resources something like Yandex or Google and shared it with other file sharing community. However we never lost the main goal - just one thing "to fill out the catalog of files" and grow with your needs. Today Mister Soft services are wide known and popular, especially on the Internet. We are happy to see you in our catalog and invite you to become our friend and download anything you need.

Q: Merging 3 Excel worksheets into a single one I want to create a macro in Excel VBA that merges three sheets into a single one. In order to do that, I wrote the following code:

```
Option Explicit
Public Sub test()
    Dim objWorkbook As Workbook
    Dim currentName As String
    Dim counter As Long
    counter = 2
    For Each objWorkbook In ActiveWorkbook.Worksheets
        currentName = objWorkbook.SheetNames(2) & objWorkbook.SheetName
        If objWorkbook.SheetName = "Sheet1" Then Sheet1.Copy before:=Sheets(counter)
        counter = counter + 1
        ElseIf objWorkbook.SheetName = "Sheet2" Then Sheet2.Copy before:=Sheets(counter)
        counter = counter + 1
        ElseIf objWorkbook.SheetName = "Sheet3" Then Sheet3.Copy before:=Sheets(counter)
```
