## What's new in Elden Ring:

However, since that release, a rumor surfaced on the internet one day that they were working on a sequel (also called Tarnished), leaving fans to wonder whether the company was reviving the project or not. Since then, no concrete news has emerged except for the following:

- A developer once again retired and a portion of development work has been halted
- A period of no activity where nothing has been announced besides the developer's retirement

#### **Pictorial Preview**

We will now bring in some pictures that were released during the period when the game was halted (quite a while ago now), starting with a C&C-like character in Tyria.

The upcoming sequel "Tarnished" is set in the world of Tephras, and features a number of characters who bear strong resemblances to Davos, the mascot character of players who enjoyed the game C&C: Generals. This means that it is quite possible that the game aims to center more on C&C and other similar games. The cast, setting, lore, and world are expected to be much closer to those of C&C than LLUS, so as a result of this, we can expect many features from C&C to be included.

As you can see in the pictures below, an image of a character resembling the supposed titular character of this game was included in a news leak posted by the game's developer ( The image had already been posted prior to when the game was announced, but according to a statement by the developer, it was not a C&C related game and has nothing to do with this new hypothetical project.

During this period of time before the game's announcement, there were a number of comments referencing the game's possible title

As such, it would be reasonable to post a poll as to what some fans think would be a good title for it.

**Incomplete list:** 

- Days Gone
- Wild West
- Z-Project
