• Explore an Open World with Complex Maps and an Innovative Online System In the Land of Gwyst, the continent of Elden, there is a great kingdom called the Kingdom of Gwyst. Due to its cold climate and lack of fertile land, only elves and mountain sprites live there. The former is the kingdom's special class, whereas the latter are the kingdom's savage monsters. Also, due to the cold climate, those monsters travel between different countries, hunting and feasting on the elves of Gwyst and the travelers passing through the country. The king of Gwyst has raised a large army to defend the land, but its growth is hindered by the wandering monsters. Moreover, a group of savage monsters known as the Eftee clan has founded its own kingdom, Mount Elde. The latter is the largest of the Eftee clan's three countries and is set atop the highest mountain, Mount Elde. It is said that a terrible evil dwells in Mount Elde.
