In addition, the more devoted you become to your journey and your friends, the more growth and rumble in your adventure you will have.

As this is a Fantasy Action RPG, it features the "Upgrade your weapon with better stats" system. By leveling up your character, you can change the stats of your weapon, increasing its strength as you progress. There are a variety of weapon slots that you can insert weapons in. Each weapons has three different stats - "attack", "defense", and "magic". By choosing different combinations of these stats, you can use a weapon that suits your style.
