Features: “HyperMotion Technology” enables a new level of player intelligence. The gameplay engine adapts to your player’s on-field actions, dynamically reflecting the world around you. Players now react to the conditions on the pitch and to your decisions. For example: if your player is shot in on goal, he can perform a D-tackle to disrupt the attack. If your player wants to take a low shot on goal, he will need to time his run so that he has the right moment to take the shot. The intelligence of your team will affect how the game plays, changing tactics and tactics as the match progresses. Player Progression to build your Ultimate Team. Unlock, rate and trade more than 250 real-world players with unique and realistic attributes. Collect 150 players with the new “Signature Edition” limited edition cover. FIFA Ultimate Team has been overhauled, making the process of constructing a great team even easier. Official List of Features: The Basics The Ultimate Team. Collect, rate and trade more than 250 real-world players with unique and realistic attributes. Unlock and improve your teams with FIFA Points – a new currency that offers you the ability to unlock packs, players, and stadiums. Master your Ultimate Team with an improved PES training tool. Master your Ultimate Team with an improved PES training tool. “Join Passes” are now “Follow Passes,” which means you no longer need to be right next to your teammates to collect a pass. You can now join passes from over 50 meters away. You can no longer see opponent players. Possibly the most significant change is that you will no longer “juggle” your player(s) while passing, moving, shooting, etc. Possible changes: “Juggle” system in place to discourage players from “juggling” passing. While you can pass the player around, the player will no longer be “juggled” during a pass or move. Possible changes: “Hits” and “Blocks” from the player no longer affect your ability to move the ball, but you will now be stopped as the ball is bounced off you. “Fouls
