"Magic Time" is a new RPG from indie developer Akiba Interactive. The (dare I say) "RPG Maker for Beginners" uses simple interfaces to create fun RPG games on the go. It's a

game that is filled with rich story and simple controls. The mechanics of the game are just right. Aside from a good story, there's a variety of playable characters for you to choose from and quests to level up. Up to a total of four people can go on a single quest, so you can have as much fun as you can. A unique setting and story await those who brave the dangers of the magic forest and the undead. In the event of death, you can continue your adventure. We're so sure you'll enjoy the game that we designed this game with the most simple and intuitive interface to make it as fun as it can be. Every time you die, the game is set back and you cannot continue your adventure until you reach level 50. When you are at level 50, you will receive life points. Through these life points, you can invest in various items that will help you reach level 51, unlock new characters and access new areas. - Protect your team and explore the world on the go! - Fun with friends! Quest together! - Farmable characters to unlock special powers! - Lifespan of characters reduces each time they die. - The story unfolds as you progress through the game. - Many playable characters. - Beautiful graphics and custom-made music. - Many Quests to find and complete. - Rank up your character to create a better, stronger team. - Training: Unlock characters, cross-train them, and expand their abilities. - Skill Tree: Learn new skills to synergize your character. - Ghost Mode: Can be turned on and off for those who want to play with friends. - Various enemies and monsters await you in the forest. - The Minstrel can be used to summon reinforcements. - Gorgeous scenery. - Large diversity of skills and play style. - Various musical backgrounds, themes, and custom-made songs. I don't have any affiliation with akiba after the game screen Magic Time is an adventure in the arcade genre with a magical setting. The Dark lands are invaded by evil undead after an ancient curse.
