If you are looking for a reliable antivirus that is both simple and easy to use, then this is the one for you. It is simply great and easy to use. There is no Microsoft Office or Adobe. Elisa Nance wrote this piece on the strong, victorious women of Texas. It's been just over a year since I wrote an article about Texas's rebel girlfriends, a group of women who had been abused as children and met in adulthood to punch holes in emotional walls. I pointed out that without such women, "we wouldn't know what it is to be strong and fearless and have the courage to grow up with the unique burdens that we carry. These women show us what it means to survive, to thrive, to be a survivor and to find a way to save the ones we love." This group is not so different from the survivors who stood strong in their tequila nights and the Tex-Mex weddings that have become party staples. They have brought a new

---

energy to Texas in the past year and all it's meant for society. But some of these women have only just begun to fight. The strongest ones are the ones who have dared to name their abuse, and you can take your pick of stories that range from childhood sexual abuse to online predators. One of the most powerful, simply because it hit so close to home, came from a friend of mine at the time I originally wrote about these ladies. She told me that when she was a teenager and a young adult, her father molested her from age 10 to 13. She was so traumatized that she, at one point, wondered if she had been raped by the man she loved. It was one of those moments when her most primal instincts kicked in and she thought she was in a state of self-defense. Her father was otherwise a very loving and caring father. It's just that one thing she could not, and would not, allow herself to name for what

---

it was. It wasn't until this past year that she was able to acknowledge that the crimes against her body and soul had even occurred. That's strength. She is in therapy and lives daily in the presence of all she has survived. The others have come forward with their stories as well, and all have lived them every day since. You don't need to be the victim of a childhood rape or childhood sexual abuse to have suffered one of
