What's new:

Objectives Since we do not have a budget, we will have to work with what we have, say "Hell Yeah I have all these items" and that is great. We'll be going for the following: The second picture is from the first draft of the film, I kind of pulled the design from the film. This is how the film is supposed to look when in action. So that we have something to go by. I came up with this after we tested a few ideas we had. And here is a drawing I made in Photoshop (Second picture is a better quality). Here is our comic book. Overall looks It's been a while since I have posted on this site, so posting again. My name is Lexicus, though I have an alter ego of Lenoxus. For more information on me, you can check on Tumblr, Twitter or this blog on sitewide. What I have done so far: A section for select SCP's SCP6TDS, this one is pretty tricky. Would love feedback on this and the rest. More comics A full comic with 7 heroes Sidebar for SCP's Ability to make one of

these pages for all 3 SCP sections Fun things to do Make as many of these as you want Video games! Duh Make them with atleast a few screenshots Info on characters Try to stay away from the Harry Potter (Though this would make sense cause there is a common myth surrounding SCP 6tds being related to the books) Looks wise, check out what I have done. I have used white characters, no shading and limited choices of colors and details. Here is a quick description of the characters. None of the characters will be related to real life people, but that could be in a future comic. Baker (SCP06TDS) A far out baker with some deep dark secrets that the town does not know. Not much is known about her. It is believed that she is an old orphan, lost in a group home when she was just a child. She was accidentally disowned because her mother of 5 sisters is scared and does not want to know of her conditions. This is the screentest I have done, it worked really well and featured the character well so I am proud of

Estoy desarrollando un programa en C que demuestre e imprima solo los caracteres "A", "U", "I" y "Y" del alfabeto en orden. Hasta ahora he logrado obtener el resultado en un char y meterlo de nuevo en la cadena original, pero no logro poder hacer otra cosa. Por otro lado, me gustaría saber cómo lograr hacer el programa solo con los dos primeros caracteres, como "AUIY". Les dejo mi código por si les sirve de ayuda: void imprimir_caracteres(char * cadena){
