Sekiro: Shadows Die Twice is a brutal, unconventional, and personal action-adventure that will challenge your mettle, rewarding players who can defeat incredible odds. VULNERABLE VEHICLES: Risk everything to scale walls, boost across gaps, and glide along wires to exploit Sekiro's seamless vertical environments and massive scale. From tall buildings to ancient temples, get up close and personal with the enemy and use your prosthetic arms and abilities to escape or defeat them. DARK PAST - APOCALYPTIC FUTURE: When Sekiro was born, the Ashina Clan enslaved his people, forced them into slavery, and burned their village to the ground. His clan swore to avenge themselves upon the Ashina by killing their patriarch. Sekiro was born broken, but his rage burns through him like a blazing fire. His goal is to seek out and destroy the Ashina. DANGEROUS ENEMIES: Employ your prosthetic limbs and weapons to evade and defeat your fearsome enemies. Powerful Ashina ninjas will use deadly attacks and traps to bring you down, while flying squirrel-men and giant snake-men will obstruct your path. IMPRESSIVE SCALE: From large scale temples and ancient castles to the massive city of Ikebukuro, the environments are vast and detailed, making them both aesthetically pleasing to explore and challenging to navigate. NEW GAME+: Earn more experience and use both the real and forged prosthetic arms to increase your capabilities and skill level. ACCURATE SOUNDTRACK: When you fight with prosthetic arms, you need to account for the weapon's effects when you fight with a dagger or some other weapon. This is especially true when you have a mechanical arm attached to your character. With an accurate audio presentation, you'll feel the weight of your prosthetic arm as you lift it up or drop it. Nice and simple, the only supecritial element, and that is that you don't know what the other person has installed, and how they like it set up. It was the same with the game I'm currently playing, it took me a few minutes of fiddling with a few components to adjust things to my own preferences but once that was done I was a happy camper. Really great UI too, its clean, neat and easy to use. 10-01-2019, 01:44 PM _GDT Quote: Originally Posted by c9d1549cdd
