PlayStation 3 If you have a PlayStation 3, the Street Fighter 4 Live Access Code Keygen can be downloaded from the console. 2.10 out of 5 stars 56 ratings About This Game Street Fighter IV is the next installment in the long-running Street Fighter series. It's the first (and by far the most expensive) game in the series to fully utilize the arcade "perfect port" 3dfx Voodoo 2 card. I started playing Street Fighter II (the one that got all the bitchez ) in the arcades back in the day. When Street Fighter II was released for the home computer it seemed like a good, more accessible alternative to its arcade counterpart. Then around 1994 (or so I had "THIS IS MY HOMECOMPUTER!" sticker on my windows 98) my dad was cleaning out his records/CDs andA... All reviews for Street Fighter IV 6/10 All I can say is: "pshhh". After playing the arcade version for 3 months I can say that I was completely miserable when the game on the PS3 came out. It's not that there was a huge improvement over the arcade version, but I played the arcade version for three months and liked it a lot more. And a BIG part of why that was
