SUCCESS: 1.39 BETA: 11/13/16  
0% PEGI 1 10/10 "The Tower of Tiger is all about precision platforming, but what makes it all the more fun is how much there is to do. The developers have decided to use the entire screen to push the player forward instead of splitting the level into small areas, so the challenge of progressing from one platform to the next without dying is something you'll spend a lot of time trying to master. You

---

can only survive for a certain amount of time before you hit the ground, so you'll have to learn how to save yourself. Once you're used to that aspect, it really is all about going for the high score and coming out on top. This is where the Tower of Tiger really shines, for it's full of challenges, bonuses and traps that reward you with extra lives as you defeat each one. There is a lot to do, and I can say with certainty that it will take you the best part of a week to complete this challenge alone. Once you've

---

completed the game you'll be presented with a brand new difficulty that is just as difficult to finish as the original and that will take you a long time to complete. Regardless of how you'll tackle it, this is a well thought out and smooth gameplay experience and that will keep you coming back again and again. If you can be bothered to unlock the achievements for completing each level, you'll be able to get the 1st place award for the very best score of all. The Tower of

---

Tiger will keep you interested and challenged in a way that very few games can hope to achieve and that's a credit to the developers of OlliOlli for releasing such an enjoyable title on the Switch." 10/10

**Record: Volume III \* \* Great Wall City** The Great Wall City of Tian YuanZhang is located in the One Ringlet Region of the Stormfalls Garden, which is a peaceful land. The city wall encloses the entire city, which is 60 kilometers northeast of Tian YuanZhang. The Great Wall City of Tian YuanZhang is well-fortified and guards the cities in the neighboring countries. "There are no inhabitants in the Great Wall City because we don't have any grains or crops to eat. It is really a big waste of manpower, money and time."--The Great Wall City Administrator

Once in a while, the 70-meter-high wall of the Great Wall City of Tian YuanZhang cracks apart, and hundreds of rats emerge from the gap, destroying farmland and killing local herds. It is impossible to deal with such a situation. However, there is a hero in Tian YuanZhang — Chen Liu-Han (Xie Long). He has a family. He has an ideal, a dear wife, and a bright son. Chen Liu-Han joined the Great Wall City to work together with his colleagues to escort the "Qiu" army in the

**One Ringleet Region to fight the tiger qiu qiu balls. The Qiu army constitutes between 1 000 and 1 500 people. If 1 000 people are killed by the rats and 50 people are abducted every day, it means that the Qiu Army loses between 50 people everyday. In no way does that amount to more than 2 people per day. It seems that Chen Liu-Han has accepted that work willingly. Away from the Great Wall City of Tian YuanZhang, a place from which the rats and qiu qiu balls can be seen was named After the Great Wall City of Tian YuanZhang, where Chen Liu-Han lives most importantly. In order to keep people from being attacked by the grass weeds and rats, a "controlled provincial bureau" is established and supervised by Chen Liu-Han. It was set up to ensure that people feed freely, and the status of "after defeat" was set for all other towns. Guangxi Provincial Bureau of Commerce, Ministry of Defense and Central and Northwest Region Bureau also sent inspectors. Shen Yang-Qin was in charge of the Inspection and Education Office.
