The History of Tarnished Gold The lands between the Feywild and Eberron have been occupied by a number of races for countless years. But in the chaotic battle between Eberron and the Feywild, the Eberron Empire suffered a disaster that left it in a shambles. The realm was plunged into chaos, and the land fell into ruin. Centuries passed as the Eberron Empire fought to become re-established, as each ruler struggled to take control of its fractured state. During this time, powerful forces were amassing throughout the lands between the Feywild and Eberron. A dark shadow descended, and wars began brewing between the Dragon Empires. Years later, nations were at war with the Dragon Empires once again. The energies of the Elden Ring crackled within the inhabitants of the Lands Between, and ancient powers seethed below their surface. Within the long-forgotten ruins of Tarnished Gold, an unspeakable evil was devising a plan, and its minions were awakening long-entombed ghosts in the blackest depths of the Feywild. A calamitous chain of events began to unfold. All the lands between the forces of the Dragon Empires and the land of Eberron came under the hammer of both the demonic hordes of the Chaos Gods and the vile spiritual forces of the Chaos Planes. Rise, Tarnished With the state of the Eberron Empire on the verge of collapse, the new powers of the Dragon Empires have opened up their realm to the children of Eberron. By chance, they have chosen Tarnished Gold as the site of a new settlement for the fledgling nation-states. Many of the new arrivals hoped to find a place for themselves in this expansive new world, and soon the nations of the Lands Between that had fallen under the control of the Dragon Empires have been transformed into a teeming collection of nations and villages called Tarnished Gold. Among those arriving was a group of free elves. Impressed with the people of Tarnished Gold, they found themselves chosen to lead the construction of a new settlement. Unaware that there was a greater evil lying in wait for them in Tarnished Gold, they began building a new nation, unaware that a sinister plot was unfolding. In a cruel and unexpected twist, the new settlers in Tarnished Gold discovered a great evil, a powerful dark wizard who claimed to have fled from the lands beyond the

Adult Dummy An adult dummy is an adult zwiebel, designed to mimic the subjective experience of a typical human being, specifically a woman or a man. The person often wears contrived but unauthentic-looking clothes, and appears to walk, behave, talk, and experience emotions but is not otherwise real. Components of an adult dummy Adult dummies are highly made up to look like typical humans. They often include a mouth, a head and neck, head hair, cheek bones, and facial hair; makeup to produce sunken cheeks, high, round breasts, and triple-D breasts; and earrings and a nose ring. The dummy has full lips and eyelashes and may or may not have lipstick and mascara. The articulation of the prosthetic head is often more than that of anatomically accurate human heads and therefore usually has a neck brace to fix it in position. Developments in the last couple of decades have seen dummies come to be used for a number of purposes. Adult dummies are now used for children's birthday parties and as a source of educational entertainment. Different experts in the medical world have undertaken research into the field of an adult dummy. They have noted not only how an adult dummy can increase understanding of the practice of medicine, but what sets it apart from other similar toys. Advertising and medical uses Companies like Schwan's Consign Inc. have turned to adult dummies to boost their brand identity after running advertisements for children's birthday parties. As children grow and mature, birthday parties now involve children from a range of ages. The selling point for a company selling party supplies for them is that they can appeal to a wide range of clients, not just children. Schwan's Consign Inc.'s adult dummies can become modern marketing tools by being traded in, and used for online quizzes and party games. This added product and service allows Schwan's Consign Inc. not only to introduce its value-for-money products but to take advantage of all potential opportunities that
