In 2012 the AutoCAD API was superseded by the Unified API. In addition to being an API for programmatic access to the CAD drawings, the Unified API has allowed the CAD system to use the web browser as a visual user interface and desktop client. This has allowed Autodesk to make available to their customers a web-based version of AutoCAD. Autodesk released AutoCAD as a web application for Internet Explorer, Mozilla Firefox, Safari, and Chrome. Windows 8 has integrated a web-based version of AutoCAD. History AutoCAD was introduced in 1983 by Autodesk, Inc. and began as a small desktop application, which was originally released on the Apple II. The current version is AutoCAD 2018. AutoCAD has been described as "a standard for 2D drafting" by the Organization for the Advancement of Structured Information Standards (OASIS). It has been used in numerous applications ranging from 2D drafting to 3D modeling, mapping and other 3D modeling and drafting applications. As a standardized format, it is often used to import and export data in other CAD systems. In the 1980s, AutoCAD and the other pioneering CAD programs were among the first commercially available software applications to support interactive 3D modeling. In 1998, the Chicago Tribune reported that "AutoCAD has become the go-to CAD program for many architectural firms, with an installed base of about 100,000 users." Markup Language AutoCAD has support for more than 20 different markup languages, including DXF, DWG, DGN, dxf, Dymo, Graffito, Graphite, Graphviz, Graphviz Dot, HPGL, Intergraph, KeyShot, MicroStation, MarkMaker, MathType, Microsoft Excel, MicroStation Metadata, MMX, NURBS, NC, OLE2, PDF, Plist, PLY, Primavera, Printer ITC, Prusa ITC, Pub, QCAD, R, Rhapsody, SAP, Shaded, SVG, Superformats, STL, Sun Lamp, Task, Tps, ULINE, SVG and Visio.
