Key Features FIFA 20 introduces a brand-new control scheme with DICE's in-house internal control scheme called EA SPORTS IGNITE. The game is the first in the franchise to support a full controller layout, including stick and shoulder buttons on both sides of the controller, analog sticks, D-pad and face buttons. An adjustable "Analog Thumb Stick" is also introduced which can be used with the analog stick for additional precision. The controller button has been fully redesigned, with dedicated shoulder buttons that can be activated with a touch of the shoulder button. The team needs to be supported by the movements of your arms and head in FIFA 20. FIFA 20 includes the new EA SPORTS IGNITE control scheme.
