Rise from the Dust is the new fantasy action RPG that is being developed by Robot Entertainment, which is a producer of the CyberConnect2 (an image) and Megaman (a famous game-starved company). The company has put considerable resources into creating this game. The first character named 'Tarnished' is a low-class member, but after gaining the power of the Elden Ring, he rises to the rank of Elden Lord. He sets out on an adventure with his companions and a helpful guide to have him through the Lands Between. The Lands Between are divided into three zones: • Arcadia, where nature is in bloom, • Anti-Arcadia, a desolate zone filled with monsters and traps, • Ultradea, a peaceful region with magical effects. Rise from the Dust will be released in the form of a free trial with the first chapter of the story. The action elements will be difficult, but the main genre of this action RPG is the third-person action adventure with role-playing elements. In addition, there are also turn-based battle options. The game will feature a rich world, the atmosphere of which will be dynamic and exciting. In addition, it will also have aspects of the horror genre, such as a hidden element (action against a hidden target) and horror story elements (the adventures of Tarnished) like "The Spiral Labyrinth." The story line is rich and deep, in

Startup as Big as Airbnb is a Big Problem Editor's note: VentureBeat updated this story to correct a statement made by UC Berkeley Crunch reporter Kyle Russell concerning the one-time size of Airbnb March 26, 2014. Russell also provided the number of households in San Francisco, and NYC but neglected to mention that he was regating Airbnb data from those cities' agencies. The impact of this r is inconsequential to the first three revisions of our story. Forget charming San Franciscan traveler, San Francisco's sardonic museum tor, the eclectic Bostonian, or the handy Chicagoian. The innovative Yorkers, the classic Brits, the energy-efficient Californians, the ient Floridians, and the social Utahns — these are the cities that n to have figured it out. Not only can these "average" cities host sts staying no more than four nights in their own city, but they are ting to host guests staying at least 50 nights, or a hundred, or
