TeraCopy is a file to file backup application that is designed to help users recover lost or damaged data. Similar to other backup applications out there, TeraCopy includes a lot of useful features, including a scheduler, pre-defined FTP settings, a verification tool and a secure mode. The program comes with a scheduler that enables you to automate your backup tasks, schedule when to backup and what files to recover. You can also pre-configure the app to connect to your FTP server, so you can simply point TeraCopy to your FTP account and you can get started. Users can also choose to set the FTP settings to use the default, Local or Custom FTP settings. In addition, TeraCopy includes a tool that verifies the integrity of a backup file, so you can have full confidence that it is indeed your data when you get back to it. Of course, you need to ensure that you have a working Internet connection to be able to restore your files. MPC-HC Classic is a program that allows you to control the WMP component from a Windows CE-based device. The main benefit of MPC-HC Classic is that it lets you stream media to a CE device that supports the MPC-HC Standard. This includes CE versions of BlackBerrys, PDAs and Playsnacks. The software itself is simple enough and doesn't include any advanced features, but it gets the job done. There are a couple of things that need to be improved, including possible updates for future versions of the WMP codecs. Of course, MPC-HC is a simple tool, and although it does it's job, it doesn't quite offer as much flexibility as its competitors. AVG is an award-winning program that has become a standard utility included on all Windows systems. The program offers a lot of features, including disk defragmentation, file searching, text and email scanning, Internet speed optimization, PC maintenance, photo editing and video editing. According to the developer, the application offers up to 90% of the features of the comparable applications out there. Of course, the program is not very resource heavy and it can be very quick to get your files scanned. Just like all the other application on this page, this one is also very simple to use. Edisoft Photo Studio is a Lightroom plug-in designed to help you retain the best of your image files. It features a fast and b7e8fd5c8
