What's New in the Photoshop 2021 (Version 22.4)?

EDIT: Like myself, this was the only post that was left on the original page that had not yet been edited. So I made some new pages to make up for it. Here's a link to the original page if anyone wants to refer back to it: [link] Yeah I know, it still needs a bit of work. But I got sick of trying to post on the old site, so I thought I'd make a new page and just post any thoughts that I happen to think of. Now if anyone is interested in a bit of crayon art, go ahead and favorite the page! It's pretty much the same artwork as on the old site, but I've made some changes to it. The shading was originally drawn in a tiny bit smaller, and the background was much lighter. I wanted a bit more contrast, so I rescaled it and darkened the background a bit. In the 'Sneakers' version I added a custom cup and a crispier, more pixellated cup. (You can see the old and new versions of 'Sneakers' on the link). The 'T-shirt' version I gave a bit more definition to the cup by putting it into a larger frame. I also made the words a little darker, and added a bit more contrast. There is a lot of work and sweat (ok so it's more like tears) that went into this one. I'd love some feedback on it, if you have a moment. Kinda need something about this page to make it taste betterScience Research Laboratory (Imagery) Science Research Laboratory (Imagery) The Science Research Laboratory (Imagery) of the United States Patent and Trademark Office, or USPTO, is a small, innovative, program that, in 2017, supported more than \$300 million in inventive activity at the USPTO.
