I prune it, clean, and color it every few days with high-quality enamel paint. Propagation of acoustic waves in a wedge-shaped water tank for marine use. If no acoustic obstacles exist, three standing waves (Rayleigh waves) can be excited in the water tank of a marine ultrasonic wave testing system. However, when there is an obstacle in the tank, only two standing waves exist. For analysis of the specimen wave field near the obstacle, we have simulated a spatial distribution of transient waves in the tank using finite element analysis, taking into account the obstacles.

The types of waves and their locations have been determined by solving a boundary value problem for linear acoustic wave propagation in the presence of obstacles and with the presence of a free surface. The results show that even at low acoustic frequencies, the bottom boundary condition plays an important role in the localization of the wave field. Six Ways to Make Social Media Fun Social media is fun. A great way to keep your

---

business in front of your customers when not having sales in person. But sometimes this whole “following us on FB” thing can turn into a giant chore. It’s not always easy to find time to sit with a computer or phone and just spend a few minutes posting a quick message, uploading an ad, commenting on a blog post, etc. The most successful businesses make it look easy. They have multiple ways of reaching their customers, and they’re bringing the fun back into social media. So you’re wondering how to keep your business fun while keeping it up to date. Here’s what we suggest you do.

1. Engage your customers Social media provides a vehicle for businesses to build, nurture, and engage customers. As you know, that can be a difficult task if you are just talking about your products and letting customers come to you. So don’t be afraid to hit people up on social media. Let them ask questions, promote their business, offer a discount, bring your products to their customers. Use social media to make the customer part of your business.
2. Differentiate Whether it be by using different shades of text, a graphic, different backgrounds, etc. social media will really stand out when something new is seen by many at once. So use it as a tool to make your business look unique. It is also a good idea to have a different hashtag or tag for every social media platform
