SEOUL, Apr 24 (Korea Bizwire) — An environmental group in South Korea has published a list of the country's most polluted cities, prompting officials to reassess a number of air pollution-related regulations. South Korea's Air Pollution Control Act stipulates that a city is considered "unhealthy" when the overall concentration of fine particles, known as PM2.5, exceeds the upper limit, set at 25 micrograms per cubic meter of air. This game was made for free on my beautiful Ond Art: Warning: This art requires a copy of the font "Juli" Game Site: Free To Play Game/ F2P - Pet Sounds F2P Game Free Game I honestly love this game for all the small things you can do, I love it when I can do anything, but i just like to skip and listen to the music, it's fun to hear the music, and sometimes I skkipe to the beat, or just listen to the music, but it does get a bit repetitive, it's not boring, I just think it's not as fun as other games if you just go through the whole level. Everyone loves it, and it's made super quick. Sorry if this is a bad review, I wouldn't mind hearing what everyone else thinks though, I would love to see what people think about it because I'm not sure if I will start playing it from now on. But if I ever did start again I would be happy to go through everything to try it again. This game is free to play and the devs behind it, Metanet, invite everyone to try it as free and/or for a shot to play the full game at a discounted price. 2 of 4 people found this review helpful. Was this review helpful to you? | Report this Crazy duck Played the game for awhile now and never finished the game. So I picked it up after playing a number of free games. The idea behind this game is interesting. You are a duck, and you have to click the ducks to the beat of a song. Cool concept. The game is pretty straightforward. You don't have to aim, or look for holes and it's pretty easy. If you are struggling, just try to stay to the right and you'll be fine. So far so good, but the game has no story or any kind of progression. It is basically a game that is really short and takes several minutes to beat. However, it has the chance to improve or get better if you are seeking high scores. It is a fun game in the beginning, but the leveling up and playing through the many levels leaves me feeling lackluster. Yup, a one-hour playthrough with a crappy 8-bit soundtrack that fails to capture the essence of the game. The c9d1549cdd
