This form holds the information about the.Q: Javascript getting value from array or multiple values from an object Using JavaScript, I have created an object, saved it to a database, and pulled the information back out of the database and created an array of these objects. Now I want to know if there is a way to access and use the data from the objects, or to access and use multiple values of the same object without creating a comma-delimited string. Example of data I am using: var data = [ { "id": "835", "name": "Foo", "description": "description here", "tag": "Red" }, { "id": "832", "name": "Bar", "description": "description here", "tag": "Green" }, { "id": "838", "name": "Azz", "description": "description here", "tag": "Blue" }, { "id": "837", "name": "Boo", "description": "description here", "tag": "Yellow"
