        assertThat(emailList.length, is(2)); } }
```

the emailService class has a private method that returns a Map of users

```
public class EmailService {
    public Email[] getEmails() { return
    emailMapper.getAll(); } }

    getAll() { //can be populated with static values //so
    the "emailList" object would contain something like
    emailList.get("user1").getEmailAddress() } }
```

and emailController is a @Controller The error I am getting is java.lang.AssertionError: Expecting:
