She then sets out to learn as much as she can from her partners while working on her own project and atelier.The missions that Ryza must complete take place outside of her atelier, and are also her responsibility. What she can do at her atelier is just a bonus.In Rie's words, "Ryza's atelier is a highly coveted spot for those who desire to learn more about Atelier and learn more about themselves. But is it really necessary that Ryza have one? After all, what I thought necessary is still no more than what Ryza thinks so. It's not easy to decide, but I do agree with Ryza."

My baby daughter has an apartment. It belongs to my husband's mother, and I live under their floor. Some friends of mine have children in New York. We go to New York frequently to visit them. When we go to Manhattan, we always stay at my friend Jamie's, for the convenience of a full kitchen, bath, and bedrooms. Sometimes, though, we stay at their place because it's closer to our hotel and we have a babysitter. Last Sunday, we stopped in once again at Jamie's apartment to visit her and her husband and in-laws. As we were taking off our coats, she said, "The baby needs a change of clothes." Although I'd packed her suitcases, I'd thought to bring a few outfits for the baby, so I hadn't bothered to bring anything for her. But I figured it wouldn't be a problem to send something over to her. I asked her to describe the baby, so that I might be able to choose something that would be appropriate. My daughter, who is a year old, is awake now. She has become so spoiled that she's a lot easier for me to shop for than she used to be. "He has a blond curly hair with purple highlights," she said, "and blue eyes. His cheekbones are so high." I asked her to match up. "Myla's pinkish cheeks... Jasmine's dark skin..." she said. I went over to her apartment and took the dress off the hanger. At this point, I was starting to realize just how hard it would be to shop for a baby. In the first pile of clothes on the floor, I found a peach-colored sleeveless blouse in baby sizes, about knee length, with full puffed sleeves and a slightly higher neck. I was sure I
