We are a company that wants to make a fantasy action RPG where every player can play freely and enjoy adventuring. The game is the first title in the NEW FANTASY ACTION RPG Series that draws in many features from RPGs such as Kingdom Hearts and Diablo (only without the seamless online play of Kingdom Hearts). With the deep system of RPG and Action Combat, you will be able to enjoy the excitement of role-playing games like never before, and the beautiful draw-distance and sophisticated fantasy atmosphere will allow you to enjoy the detailed world filled with a variety of enemies and situations. We are working hard to develop a game that promises an exciting adventure. A game that uses the power of fantasy and myth, where a conflict between Fate and Nihilism occurs. I really like how the story is spread out between memories, so you can experience the story in whichever order you want. But if you are a customer that is used to interactive media, the players that I talked to all said the same thing "It was too much to experience all at once". So if you are looking for a simple casual game, the type that you can play with your kids, it doesn't fit the bill. But if you want something that is casual, you can play it whenever you feel like, you might want to give it a try. It does have a certain charm to it, I want to play it again when it updates to add more. A game that uses the power of fantasy and myth, where a conflict between Fate and Nihilism occurs. Create your own character: Create your own character by selecting gender, class, and various other customization options. Explore and battle: Play a vast world full of excitement where you can explore vast world with open field and plenty of dungeons with complex and three-dimensional designs. Online play: In addition to multiplayer, where you can directly connect with other players and travel together, the game supports a unique asynchronous online element that allows you to feel the presence of others. Which languages will the game be available in? The product page on Steam is only in English. I hope the following will be the actual name of the game in English: Battle skills: Vast 3D world In the first scenario (3D version) of the game, players can freely explore vast 3D world and encounter an incredible number of monsters. Since it is so enormous, we have created a 3D world where the skies above you are great and the ground below is even deeper than far away. Although the original game where 2D images are displayed on the screen is a strong part of the story, from the first release, we will also release a 3D version of the game. However, the 2D version will still be the main version. The 3D version features a higher degree of freedom than the 2D version. Why is it called a Vast 3D world? Although each stage in the game will be displayed on the screen 2D, but we will also place monsters in 3D rooms. Therefore, to see the 3D version of the stage, you can not see the room itself, but the monsters in the room, you see what will happen in the 3D world. What is the meaning of the word Vast? The word Vast is an analog to the word vast. Vast means "unapproached" in English. When you see a vast view, you can not judge the distance of the view, but you feel the distance of the view. It is the same here. Why is this world called the Lands Between? You will encounter the Realms Between when you are in the middle of various worlds. Our game is a fantasy action RPG game that builds and evolves a fantasy world. The story will be told in fragments and you have the chance to learn about the various worlds. However, our story is not a typical fantasy fantasy RPG story like the game "Dragon Quest". Although it is a fantasy story, we

8. How to Connect to Other Gamers

With the provision of the service and the development of the game, you can connect with any other user through the website's web-based multiplayer system. This system gives us a basis for supporting various cooperative games and massively multiplayer online games (MMOG). Game players can access the online map virtually by providing a username, and connect with the players around the world.

In this system, it is possible to not only play online games, but also experience your friends' social progress in the game. The system also lets us know whether or not a player is online.

At the same time, we are continuing to build the online system so that it continues to be effective in the process of connecting and maintaining connections with players.

In addition, we will continue to support other online games, such as the continuation of the "Monster Hunter Generations" online game, cooperation between the "Dragon Quest IX" series and Monster Hunter series.

The game is connected to Steam. If you are using Steam client, in the application that starts when you log in to the account, then you will be able to discover and download the game.

If you do not have Steam client, we ask that you download Steam client. From a computer without a Steam

client, it can be obtained by clicking the link below.
