A: This is addressed in the page you linked to as a Known Issues: AutoCAD® Electrical 2013 / 2014 - (installed on a Windows 7 computer) Software update failed with error 0x80070057. Contact technical support for more. If you are an Autodesk customer, you can contact Autodesk Technical Support at 1 800-843-0984 to find out. You could also try downloading and installing the latest. However, if you try uninstalling it, it will probably remove the licenses for all of your other AutoCAD / AutoCAD Architecture / Vectorworks / etc. licenses as well. You should only uninstall it if you know that you no longer require the software. I'm not sure whether or not you can unlicense the software so you can use it on your non-AutoCAD/etc. licenses, but it's something you should investigate if you see this message in the future. Failing that, you should have a license key for this software. It will be in a text file with an.rtf extension. You will probably find it in your My Documents\Autodesk folder, or your subfolders. Download it and transfer to a USB memory stick or another device of your choice. Ugly Pills Tablets Description Ugly Pills Tablets are a pain pill alternative that is just as effective as its real counterpart, but much more user friendly. The tablet is small and discreet and the pills are not covered in wax and are not checked by security guards. The tablets also do not have any visual branding on them and do not make any noise when crushed. They are great for those times when you would love to take your pain relievers but you are afraid that you will be questioned or that you will be suspected of taking stronger medication. You can obtain your Ugly Pills Tablets when you want to and you will not have to worry about getting caught and then reprimanded.Q: Extracting.iso files from DVD ISO-images I was wondering, is there a way to extract a single ISO from a DVD ISO image? I want to make single-layer live USB's. I tried following: Running DVD ISO image via 'Run DVD ISO image' with VLC, but it gave me a.cue/.bin/.vob file which I can't unpack. Running DVD ISO image with 6d1f23a050
