## Hp Color Laserjet Cp1215 Series Toolbox Software 101

The product comes with Windows software that allows the computer to communicate with the device. This software is called a printer driver. The printer driver contains programs for communicating with the printer to the computer. You must download the printer driver every time you connect your machine to your computer. On a Macintosh or Linux computer that did not come with printer software, you can install the printer driver by doing the following: 1. Go to Start > Programs > Accessories > Communications > Printer. 2. Select the printer device you want to install and click OK. 3.
