

Windows 7 Ultimate 48 In 1 Torrent

March 3, 2014 - New share with new download links for top Windows operating systems. This OS that we have shared will be compatible with all types of PCs or laptops, it also included 48.5 GB of data, was made only in German and English. These were all versions and versions that we wanted to release, except for one: Windows Vista. This was the last version we wanted to release with our apps and tools. But it was not what we chose. After discussing with fellow developers and after reviewing the files in different versions, we have decided that we will support only one of these images, namely Windows Vista Home Basic with SP2.

Windows 7 Ultimate 48 In 1 Torrent
