aquarius is ruled by uranus, the planet of change and spontaneity, that can give the impression of restlessness, which is why you'll find him constantly on the move or staying in someplace for a few days or months without getting bored. he's also ruled by neptune, and that can lead to being caught up in the kind of unexpected, mystical experiences that leave you feeling like you have no control over your life. he could be the kindest, sweetest and most romantic soul in the universe. he could be the love of your life. or he could be the devil in your soul, at times it's impossible to tell, the aquarius man is never deeply involved in anything for long, not even himself. he's rather like a butterfly. he's all dappled and delicate and light- he'll flit from flower to flower for a moment, pollinating the one and causing the other to bloom. but then he's gone again, he's in a cloud, but he's not even sure he is in a cloud. he's the star of his own comet. he's always on the move, always changing, always dazzling, a comet that never lies still and never gets tired, never even rests, he's constantly changing, constantly surprising, constantly in motion. no two aquarians are ever alike, and that's the way they like it. it's this quality that makes them fascinating, and if you're lucky, it's also what makes them good company. but that's not to say he doesn't have great people skills, and aquarians aren't usually bad at relationships. it's just that he doesn't get involved in anything for very long, he can't invest his heart in a relationship, because he has no heart, he's an observer, he's a traveler, but if there's one thing the aguarius man can do with any skill, it's make a good roommate. he's the guy who can pick up a house, move in with you and leave it in perfect condition after he's moved out, the difference between an aquarius and a gemini is that the gemini will ask you to work things out, while the aquarius will just sort of drift away and leave you to it. it's a very cool way to live. the aguarius man is a very cool guy to live with, and if you don't mind the occasional and inevitable lack of emotional depth, he's one of the most interesting and colorful people you'll ever meet. 5ec8ef588b
