T-RackS is a perfect choice for those who already have editing software and are looking for an alternative, and for those who are in the market for a product that is on par with a hardware sequencer. T-RackS combines a diverse collection of powerful tools and plug-ins in a way that's streamlined for the task of both producing and mastering, along with integrated DAW functions, everything you need to craft exceptional music. There's no need to waste time looking up overlong manuals or confusing documentation to figure out how to use your new T-RackS. T-RackS comes with a wide variety of helpful online video tutorials and tutorials, showing you how to navigate all of the features, all in real time. You can also purchase (or download) the complete individual T-RackS 5 in the Nuendo Audio Suite. You can activate the T-RackS plug-in as one of the engines in Nuendo so that it will inherit all of the metering and processing tools of T-RackS 5. These processors are compatible with both the PC and Mac versions of Nuendo. You may need to disable some Nuendo processors while you're using the T-RackS plug-in. Additionally, ALL current owners of T-RackS 3 Deluxe or Standard suites also have access to the individual modules (included in the package they purchased) as a FREE download from their IK user area. Users will need to log into their user area, go to the Downloads section, and select T-RackS version 3.1. The new version will also provide additional memory and CPU usage optimizations along with enhanced Pro Tools 8/Multicore Mac support.
