from readers of "Ingenieria detranso y carreteras/ Traffic And Highway Engineering (Spanish edition)": User Vladimir Pronin writes: This book, without a doubt, is one of the first to be added to the basket when choosing a gift for a child. Bright, colorful, with unusual pictures. There are a lot of animals and insects that you can see and touch. And how a child will enjoy flipping through this book! This book is truly made from the heart. I dd2bc28256
