Garmin eTrex Venture HC GPS receiver (discontinued by manufacturer). I don't know if the specific model is I have new software available. Basically, you have an eTrex Venture HC GPS receiver and want to update to the new software. My question is how can I do this? This is because I'm assuming you have internet access, just like me, but don't know what that would be for me. Any advice would be appreciated Software update Garmin

has a software update that you can download from the user manual. You can find the update on the Garmin website .
