See some screens: Account Book Fukusuke is a small and handy private account book that can be used by everyone who wants to record and keep and eye on bills, bank payments, personal expenses or incomes. Manage your finances with ease The interface is basic and user-friendly, divided into an income, expense and balance panels, along with a record list of all incomes and spendings. You can create multiple account books by giving them different names and locations. Choose the proper categories from education, food or health To add a new entry, you first have to select the item's type (income, expense) and the category it falls in, such as food, clothing, recreation or education. Further, you need to select the proper tab from cash, bank or credit card, which adds or subtracts money from the total balance. All you have to input is a name, memo and the amount you spent. Credit card transactions need to have negative values For example, when you paid for a book with cash, through a bank transfer or with your credit card. Keep in mind that when you enter a new expense into the "Credit Card" tab, the value has to be negative in order to be recorded as an expense, otherwise, it's

What's New in the Account Book Fukusuke?

Account Book Fukusuke is a small and handy private account book that can be used by everyone who wants to record and keep an eye on bills,

bank payments, personal expenses or incomes. •Manage your finances with ease The interface is basic and user-friendly, divided into an income, expense and balance panels, along with a record list of all incomes and spendings. You can create multiple account books by giving them different names and locations. •Choose the proper categories from education, food or health To add a new entry, you first have to select the item's type (income, expense) and the category it falls in, such as food, clothing, recreation or education. •Further, you need to select the proper tab from cash, bank or credit card, which adds or subtracts money from the total balance. All you have to input is a name, memo and the amount you spent. •Credit card transactions need to have negative values For example, when you paid for a book with cash, through a bank transfer or with your credit card. Keep in mind that when you enter a new expense into the "Credit Card" tab, the value has to be negative in order to be recorded as an expense, otherwise, it's going to be seen as a positive parameter. •Check all your expenses and earnings In the "All" panel, you can view all the costs and incomes, displayed with the date, account, item, description, income/expense, balance and the memo. The monthly balance shows you the values for each month and every account (cash, bank, asset, credit card, difference). Sadly, it can't be exported to a CSV or XLS file. •Straightforward personal budget manager Taking everything into consideration, Account Book Fukusuke is a useful application designed to be a basic yet efficient finance manager that can hold both incomes (salary, bank transfer) and expenses (bills, books, payments) in a clean and easy-to-use layout. Key Features: •You can create multiple account books by giving them different names and locations. •Account types: Income: cash, bank transfer, credit card. Expense: bills, payments. •Credit card transactions need to have negative values. •Expenses have to be entered with negative values. •A monthly balance is provided for each account. •You can create a new account book. •You can view and export all accounts balance data (CSV, XLS and PDF). •A history panel will show all accounts balance from the beginning. •Category of bills or payments. •With Account Book Fukusuke, keeping track of your monthly finances will become a piece of cake. •Account Book Fukusuke is free and open source software. •Powerful but user-friendly.
