What's New in the?

Who wants to listen to music on the go is the main audience of Musala. The site lets you share music you have on your computer in a number of ways. You can upload music via a built-in MP3 player or via RSS, and also listen to music and post ratings and reviews. The latter also includes the option to share your favorite music through social networks, and to download tracks to your computer. The site also includes an archive, where users can download tracks by various artists and listen to them offline, as well as lyrics and cover arts. Additionally, it offers a "Radio Stations" section, which lets you search for music by genre and rating, as well as other options. The search options let you find artists or albums, as well as tracks by artists, albums or genres. You can also sort tracks by "Ideal Songs" (your best song picks), recent music, "Trending" or "Genre Popularity". To find what you are looking for, choose the "More Options" button next to each filter, and click on the highlighted filter values. Besides, you can post comments about the music you like to let other users know about it. You can also subscribe to artists or albums, and follow them on Twitter. There are quite a few music websites that offer similar services, but this one seems to be the most powerful one. The music on the site is divided into categories, such as Classical, Jazz, World, Pop, Latin, etc. Every category contains a list of sub-categories, where you can find various genres. The following are just some of them. Latin Music - this category contains all of your favorite Latin tracks. The most popular artists include Shakira, Enrique Iglesias and Gloria Estefan. Vocal Jazz - this category is ideal for jazz lovers, as there are quite a number of top acts in here, such as George Benson and

Diana Krall. Rock & Alternative - the most popular genres here include Alternative, Hard Rock, and Grunge. There are plenty of heavy-hitting acts here, such as Metallica and Rage Against the Machine. Old School - old school is the most diverse category of the site. You can find every kind of music, from Blues to Country to Dance and Hip-Hop. In the list of artists, you'll find bands like Wilson Pickett and Parliament. "more options" - this is a quick link to the category's sub-list. In it, you'll find the same genres as on the category list, but with more music added to the list. The advanced search is a bit more convenient, as it lets you search for your favorite artist by name, genre, year of release, etc. Musala is a great website that offers a number of other services to its users, such as image viewing, personalized
