The First Appearance of the Lumbridge Witch Doctor [v1.0.0] Cave of the Deep Cave of the Deep Not rated 2,148 words - 2/24/2017 Updated This story is a redo of my previous, The First Appearance of the Lumbridge Witch Doctor. However, this story adds in an additional side plot of the mine's inhabitants, and also features more descriptive dialogue, and a more complete plot. This is the first and only chapter of this story. P.S. I added in a new and improved character portrait of the Lumbridge Witch Doctor. P.S.S. I have fixed some spelling and grammar mistakes throughout the story. "I'm not ready for this." Lumbridge was a small village in the mountain region of Falador. On the surface, it looked like nothing much. Many fishing camps, shops, and other businesses lined the main road that led to Falador, the magnificent city. The land to the north of the main road was largely uninhabited, and looked to be a good place to settle the occasional rogue or outlaw. Most settlements of humans were along the road to Falador. Lumbridge had no need of expanding any further. The southern edge of Lumbridge, however, was quite different. It was in the middle of a large mine, and the land surrounding it was mostly a desert. A large mountain extended from just north of Lumbridge, and ran all the way to the northwest. The mountain, known as 'Volcanic Mountain', was what gave Lumbridge its name. The people of Lumbridge had lived there for many years. It was a strange feeling to be in a barren landscape that was your home, but as the villagers had experienced for so long, Lumbridge's vast and barren mines had been a far better
