Now i want to change it to the standard mode for some other project and i am unable to change this. I googled this and some says that we need to change setting in the maven repository which I have also tried. But it is not working. A: I think your best bet would be to contact Google directly with this problem. While there is no documentation of any process for doing so, I imagine they would only allow you to change this for a very, very specific reason. It might be a good idea to consider the following: One of your apps on GAE is in Standard mode, and you want to get a new application out of it? Your app is in Standard mode, and it is going to be phased out in a few weeks, and you want to switch to the "real" Standard mode? All of these things could have been worked out through email. Friday, October 18, 2014 Fall Favourites: #SundaySupper - Autumn's Dairy Free Inspired Recipes Over the past week I have been talking about how I would like to move to a dairy free lifestyle and I have been looking for inspiration. So I figured that I should actually start the conversation and share a few of my ideas with the #SundaySupper community. I have to admit, I have not been great in the kitchen lately. But that has changed, over the past few days I have been on a mission, researching different ways to create meals without using milk. I did not know where to start, but I do now. I have found a few fantastic websites and I am determined to use some of my favourite recipes that have featured on 2edc1e01e8
