Download Trimble Business Center - All available versions, countries, languages and. Trimble Business Center (TBC). Version 3.39 is mainly an update to improve the stability. In my book, a project is considered as a success if the client is happy and so am I because I feel that I did my best in a professional and customer friendly manner. I try to be as accurate as possible as I want my work to stay as a living record for others. Your project is 100% safe with me, because every project comes with a 60 days period of guarantee from the date of acceptance. I can create a Web development team for you. My clients have appreciated working with my small team. We have lots of options when it comes to making your product look great. I have a team of designers who can also develop your product so that it is beautiful and works just right. I also have a team of programmers who can develop a product that is functional and offers you a great experience for the user. Q: d3.js: Object doesn't support property or method 'keys' I've been using d3.js v3 for a while, but there is something new I'm having an issue with. I'm trying to get all the keys in a JSON object, but the console is telling me: "Error: Object doesn't support property or method 'keys' " This is how I get the object: d3.json("assets/data/standards.json", function(error, standards) { if(error) return console.log(error); console.log(standards.color\_standards); }); This is how I would normally do it: var keys = Object.keys(standards);
